Master's in English Language Curriculum and Instruction

Program Overview

The English Language Curriculum and Instruction Program aims to teach the language in interactive and inspiring ways through the use of teaching methods that include direct linguistic interaction, project-based curricula, and the use of technology in learning. The English Curriculum Program enhances students' listening, speaking, reading, and writing skills, develops their self-confidence in using the English language in various linguistic contexts, and contributes to the effectiveness and sustainability of their learning process.

Program Vision

Qualifying specialists working in the field of education to be able to enroll in special-ized academic programs with higher degrees, such as a doctoral program in the same specialty.

Program Mission

By graduating human cadres with high competencies in the specialization, the univer-sity strengthens its partnership with other educational institutions and corresponding departments locally, Arably, and internationally, ensuring they stay up to date with scientific research and modern developments in the program.

Program Objectives

- It creates ideal learning environments and opportunities for every student in the program.
- The program prepares teachers to lead in education according to national and international standards.
- He participates in community service by giving lectures and holding seminars and workshops for members of the local community.

Program Outcomes

Upon completion of the program, the student will have the following abilities:

- Gain strong skills in listening, speaking, reading, and writing in English, ena-bling them to interact confidently in various linguistic contexts.
- Understand the different cultures that relate to the English language, which enhances their successful interaction in international multicultural societies.
- Students are able to express their thoughts and feelings effectively in English and interact effectively with others in a variety of environments.
- After graduation, students develop the ability to continue self-learning and continuously improve their language skills.
- The program prepares students to succeed in the global labour market, where they need to use the English language effectively in various professions and fields.

Program Importance

The program allows students to interact and communicate effectively in multiple global communities, which improves mutual understanding, international relations, and cultural dialogue. The program also provides students with access to academic opportunities at international universities and professional opportunities in the global labor market, where they can master the English language at an advanced level.

The program contributes to broadening students' horizons and increasing their understanding of the different cultures associated with the English language, which enhances tolerance and mutual respect. The use of technology in teaching English also contributes to modernizing and improving the learning process, as well as preparing students to interact with modern technologies in various fields. With the exchange of ideas and knowledge in English across national borders, the program can significantly contribute to research and innovation in various fields.

Targeted Groups and Accepted Majors

- Students must meet the requirements of the Higher Education Council.
- According to departmental principles, the bachelor's degree must be in a subject that qualifies him for specialized study in the department he wishes to join.
- Students must meet the language requirement for program admission, following the Higher Education Council's decisions.
- The relevant committees and councils have approved any additional conditions.
